DON'T LET YOUR PRACTICE SUFFER IF YOU CAN'T WORK

Whether you've had your own medical practice for years, or are just starting out, you know that running a medical practice is expensive. You pay employee salaries, rent, taxes, utilities — and the bills could add up quickly if you were to become disabled and couldn't practice medicine while you were recuperating.

After working hard to realize your dream of opening your own practice, you don't want to be in a position of having to close up shop if you can't work for a while. That's why it makes sense to consider the TMA Member Business Overhead Expense Insurance plan, available to you through the TMA Insurance Trust (TMAIT) and issued by **The Prudential Insurance Company of America (Prudential)**.

We're always looking for ways to make your **Texas Medical Association (TMA)** membership more valuable. As a TMA member you're eligible to apply for

the TMA Member Business Overhead Expense Insurance plan if you:

- **Are working full time and younger than age 65**
- **Are the owner or partner of a medical practice**

TMA Member Business Overhead Expense Insurance can be an important part of your financial future, and a TMA Insurance Trust advisor can help you secure a plan that fits your unique needs.

Keeping Your Practice Viable

The TMA Member Business Overhead Expense Plan helps practice owners cover the costs of running a practice when they are too sick or injured to work. Personal disability insurance is not designed to cover their personal expenses **and** the costs of running a practice.

This coverage makes monthly payments that can help keep a practice operating and remain financially viable. The Plan helps to pay costs like rent, salaries, taxes, and other expenses - even the cost of a locum tenens to see patients while the owner recovers. Importantly, by keeping the practice up and running, it protects the owner's years of hard work, accumulated equity, goodwill among patients and staff, and positive standing in the community.

TMA Member Business Overhead Expense Insurance can help

If you become disabled

If you're disabled and can't work, TMA Member Business Overhead Expense Insurance reimburses your actual overhead expenses, up to the benefit amount you select. At the time of claim, you can choose whether Prudential will make payments to you or your business. And you can receive benefits even if you're partially disabled and your income suffers. During disability, your coverage is continued at no cost to you. TMA Insurance Trust's plan covers you 24/7, and you don't have to be permanently disabled or confined to your home or a hospital to receive benefits. TMA Member Business Overhead Expense Insurance covers office expenses that you typically incur in the running of your practice.
